To Whom It May Concern:

Re: Mr. Yung Le / RehabMAX Physiotherapy & Sports Injury Clinic

I am writing this letter on behalf of Mr. Yung Le, physiotherapist and his RehabMAX clinic, both of which I have become familiar with since 2001 in their capacity to provide therapy for musculoskeletal(MSK) injuries.

As clinicians, both Mr. Le and the staff at RehabMAX, utilize various modalities including manual therapy, acupuncture, IMS, and a full active rehabilitation gym to assist patients with improvements/restoration of function subsequent to sports injuries or any other MSK difficulties.

Both Mr. Le and the RehabMAX therapists not only support the patients throughout the rehabilitation process, understanding their needs, but at the same time, provide education to their clients and work within the guidelines of referring physicians and organizations such as ICBC and WCB, to ensure satisfactory outcomes.

As rehabilitation specialists, the therapists at RehabMAX including Mr. Le, strive to achieve successful outcomes with every individual patient referred to them, focusing on activation to improve function and quality of life.

I have no hesitation in recommending Mr. Yung Le and the RehabMAX clinic for the referral of patients/clients with sports injuries or other MSK difficulties.

Sincerely,

DC Karima Jiwa, MD.,CCFP, FCFP
